News about your investment

Dear Investor,

We are writing to inform you of some changes to your investment in Capital International Fund. **No action is required, although you may wish to take one of the optional actions described below.** The changes are described more fully below and on the next page. We believe that these changes align with Capital Group's long-term investment philosophy and mission of improving people's lives through successful investing.

If you have questions after reading this notice, feel free to contact your financial adviser or other local representative, or contact the Company as indicated below.

Sincere best wishes,

The Board of Directors

Changes to the ESG features of some funds

There are no changes to the funds' investment objective, investment strategy and risk profile.

A. Addition of binding environmental and/or social criteria to the management process resulting in a modification of classification under the Sustainable Financial Disclosure Regulation (SFDR) from Article 6 to Article 8:

- Capital Group Global Allocation Fund (LUX) will:
 - apply a carbon intensity target on the equity portion of the portfolio that is lower than that of its index
 - follow a Negative Screening Policy¹ relating to the fund's investments in corporate and government issuers
 - commit to invest at least 10% in sustainable investments
 - invest in companies with good governance practices
- Capital Group US High Yield Fund (LUX) will:
 - apply a carbon intensity target on corporate issuers that is lower than that of its index
 - follow a Negative Screening Policy¹ relating to the fund's investments in corporate issuers
 - invest in companies with good governance practices

These changes will come into force on **21 March 2025** and result in limited portfolio changes, the cost of which will be borne by the fund.

B. Decrease in the minimum percentage of investments that are aligned with environmental and/or social characteristics following a regulatory clarification on the treatment of cash and cash equivalents, which are now included in the asset allocation of the funds. Note that this change will come into force on **1 April 2025** and will not affect the funds' portfolios.
